

Looking for research participants: Describing events and telling stories

- Have you had a stroke?
- Do you have difficulties with language (aphasia)?
- Do you live in London or Hertfordshire?

If the answer is 'yes', can you help us?

We are looking at how stroke affects describing events and telling stories.

We will ask you to...

- Answer some questions about your stroke
- Talk about some events
- Do some assessments

Our findings will help speech and language therapists and researchers to...

- Better assess people with aphasia,
- Provide more effective therapy for people with aphasia

We will keep all information safe and confidential.
