

Volunteers sought to share their experiences of coordination of healthcare

We are seeking volunteers to help us develop a new questionnaire to assess the coordination of healthcare (either at your GP practice, between your GP and hospital or between different healthcare professionals in the community) by taking part in a discussion group. If you are willing to share your views about the coordination of your healthcare, both good and not so good, then we would like to hear from you.

To take part in the study you need to be aged over 18 years old, have an ongoing health problem and two or more health professionals involved in your healthcare.

For further information about the study please contact either Rachel Foskett-Tharby on 0161 275 7633 or at rachel.foskett-tharby@postgrad.manchester.ac.uk or Dr Elaine Harkness on 0161 275 7649 or at elaine.f.harkness@manchester.ac.uk.
