

Carers needed for research into the care-giving experience

Can I take part?

Yes – if you care for a partner who has had a stroke, and the stroke occurred at least 18 months ago.

What is the study about?

This research looks at the care giving experience. We aim to understand how carers cope and how is it that carers can sometimes benefit from their experiences.

What will I be asked to do?

If you decide to partake in the research I will ask you fill in a questionnaire, either by post or over the telephone. This should take no longer than 20-30 minutes.

How can I take part?

For my information please email, me, Will Hallam (Trainee Clinical Psychologist, in the picture below) at hallamw@cardiff.ac.uk or by telephone on 07790 608650.
